

**Delaware Valley Ski Patrol
Lambertville, New Jersey**

2008 Outdoor Emergency Care Class

Classes: **Mondays at 7:00pm - 10:00pm**
Starting Date: **September 2th** (that's a Tuesday because of Labor Day, class will end early)
End Date: **Mid-December** (final test date to be determined)
Location: **ESC School, 1422 Route 179, West Amwell, NJ 08350**

We will have “optional” Wednesday/Thursday classes starting mid-way through the class for additional Hands-on practice. There are three required all day Saturday events: DVSP OEC Refresher, OEC Pre-test, OEC Final test (dates to be determined).

Our class has a strong focus on practical skills. To cut down the length of the entire class and shorten our lectures there is homework. Candidates will need to spend 6-8 hours each week reading the OEC book, doing the required work book exercises, and general studying. This allows us to have more time for the exciting hands-on training.

NSP also requires everyone to have Professional CPR. This is not part of the class, but may be offered through DVSP depending on CPR instructor availability.

This class is open to everyone!

Patrol Candidates interested in taking the OEC class for alpine patrolling must have the mountain's patroller director contact the DVSP OEC Director confirming that you are enrolled as a candidate at that mountain (email or phone call).

DVSP is not enrolling alpine (downhill) patrollers into it's own patrol, but is accepting nordic and bike patrol candidates - contact DVSP Patrol Director additional info.

If you would like to enroll for OEC training, but not for Ski Patrol or are enrolling as an Affiliate Organization member, please contact us for additional information.

To sign up, please visit the DVSP website at

www.dvsp.org

and click on the OEC Information link.
